Disappointed in Profits.

Until the present time there has been shortage at the world's shipping, but this is being tapidly overtaken, and we shall soon be ned with fierce competition of private inductry. If the Government continues in the shipping business we shall be disappointed from the point of view of profits. Nor we shall be faced with the ability of private enterprise to cost of Government operations alone.

'We shall yet be fixed with the question of demobilizing a considerable part of this fleet into private hands or frankly acknowledging that we operate. for other reasons than interest on our investment. In this whose problem there are the most difficult considerations requiring the best business thought in the

CHICAGO GANGSTERS **GET NEW SCARES** Four Indicted in Enright Case and O'Brien Asks Pardon.

CHICAGO, Feb. 17. - Chicago's gang vorld, which has not recovered from the murder three weeks ago of "Mossy" Enright, "king of the gunmen," received two more shocks to-day.

A Grand Jury returned four indictments charging murder in the first de-gree in connection with Enright's death. and the State announced it would ask the death penalty in every case. Two of those indicted, "Big Tim" Murphy. Illinois Legislature, and Mike Carrozzo, are president of Chicago unions.
The second shock came when John O'Brien, sentenced to hang Friday for the murder of Policeman Richard Burke, appealed to Gov. Lowden and the State Pardons Board to save him and offered to revealed the secrets of gangland in an effort to prove that he did not fire the shot that killed the pa-Mining Company, advertised the ganglan coal industry. It had been done with did not success in the South African mines, Mr. troiman.

Jennings said, and the coolie labor af-terward had been repatriated to China. MAKES SUNDAY REST DAY.

Bill for District of Columbia Introduced in House.

A Sunday rest day bill for the District of Columbia has been introduced n the House of Representatives by Representative Henry W. Temple of Representative Henry W. Pennsylvania. Previous to this time the District of Columbia has never had a Sunday law. The Lord's Day Alliance of the United States and the Pastors' Federation of Washington some time ego joined forces for the early introduction of a bill which would secure proper legislation for the District of

The purpose of this bill is to make her country home and sold or her unlawful in the District of Columbia the sonal property were sold for much more performance of labor or the pursuit of than the amount estimated originally any trade or secular business on Sunday.

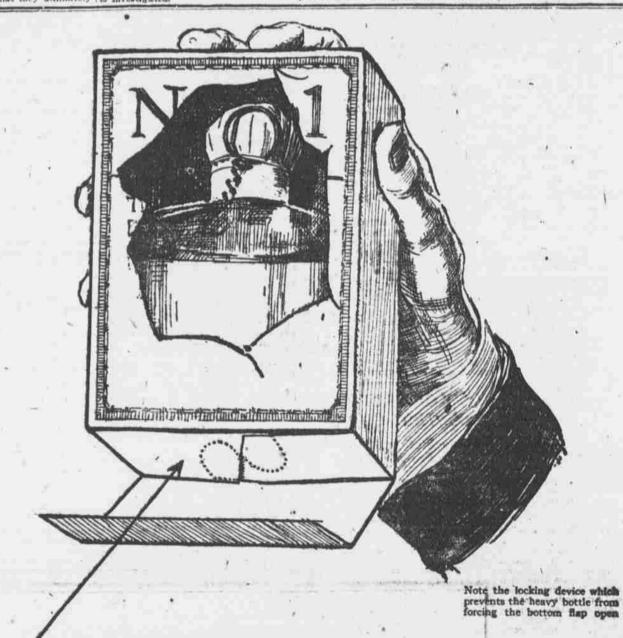

and marcy are mother, Mrs. Frances J. Pickens, and The purpose of this bill is to make Works of necessity and mercy are mother, Mrs. Frances J. Pickens, and excepted, but dancing, the theatre and public sports are prohibited. Persons tees.

properly observing some other day of the week may, according to the pro-visions of this bill, perform certain kinds f labor on Sunday.

Violations of the bill, if it becomes a taw, will be punishable by a fine for the first offence of from \$5 to \$50 and for the second offence of from \$25 to

Bessie Abott Left \$254.879.

A reappraisal of the estate of Bessie Abott Story, the opera singer, was filed yesterday in the Hall of Becords. It shows that she left property valued at \$254.879, instead of \$137.891. The increase in value is due to the fact that her country home and some of her per-

Locking the bottle in its package

How one manufacturer stopped a loss of many thousand dollars

HE Nujol bottle just wouldn't stay in its carton. The heavy bottle, pressing against the bottom flap, forced it open and slipped out.

There was loss by breakage. Moreover, the inconvenience of the defective carton was creating a more serious difficulty. It was proving an obstacle in merchandising the product; it threatened to cause a dangerous interruption of sales.

The carton had been reproduced in newspapers and magazines. It had distinct advertising value. Nevertheless, the manufacturer had almost decided to use a different type of carton-when a Gair salesman called.

Without making the slightest alteration in the exterior appearance of the carton, we rectified the defect. The ingenious locking device illustrated above holds the bottle

This is but an illustration of the ingenuity and mechanical skill which the Robert Gair Company applies to the manufacture of: Folding boxes, Labels, Shipping cases, Window display advertising.

We have designed packages and shipping cases for all kinds of products: toilet articles, food products, medical dressings, ink, safety razors, vacuum cleaners, inner tubes.

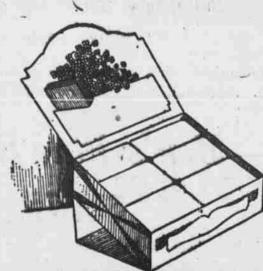

Each had its peculiar packaging problem which we solved.

A flap to prevent tea sifting out of the package, a device to prevent an inner tube from shifting in its carton, a shipping case to stop pilfering of shoes, another to prevent odor-contamination of butter during transportation-these are some of the reasons why more than a billion dollars' worth of merchandise was carried last year in Gair boxes, in Gair shipping cases and under labels made by the Robert Gair Company.

The Gair Unit Service

We control the whole process of manufacture from wood-pulp to finished product. We operate our own paper mills, make our own inks and glues, maintain our own art, engraving, printing, lithographing departments. Our chemistry department regulates and improves our processes and tests finished products. We operate the largest plant of its kind in the world.

With its facilities we are prepared to offer a complete service for packaging and displaying your product-Labels, Folding boxes, Shipping cases, Window display advertising -giving unity to your packages from factory to consumer.

Our Tinsley display container gives your goods prominence on the retailer's counter

We serve the greatest package merchandisers of the country. Among our clients are:

Arbuckle Brothers National Biscuit Co. Andrew Jergens Co. American Chicle Co. American Sugar Refining Co.
